

Control Feature Checklist

For users who are looking beyond face to face communication for their system, use the trial to check all compatibility. You may find not all features are compatible with your user's current technology and you need to prioritise features.

Here are some of the most common features to consider:

Feature/Function	Priority Level for User 1 = Not important 2 = Not important right now 3 = Somewhat important right now 4 = Important right now	Current Technology E.g., mobile phone model/TV Model etc	Hardware/ Software Compatibility Comment on how trial of the feature went with different software/hardware
TV Remote (external TV)			
Other infra-red remotes (eg stereo, air con)			
Social Media <ul style="list-style-type: none"> Facebook Instagram Twitter TikTok Other 			
Computer Access <ul style="list-style-type: none"> YouTube Internet Browser External computer (eg AccessIT) 			
Recreation <ul style="list-style-type: none"> Audible Zoom Skype Games (eg chess, solitaire) Other 			
Phone Access <ul style="list-style-type: none"> Voice Calls Video Calls SMS Emoji GIF 			
Email <ul style="list-style-type: none"> Standard text Images Documents 			
Software Access <ul style="list-style-type: none"> Word Excel PPT Other 			
Voices <ul style="list-style-type: none"> Message Banking Voice Banking
